Letter 11/13/50--"For over 10 or 15 years I have not had any good chestnuts. I have wondered why. I read why in Nov. 15, Pathfinder magazine, page 51.

I am un the hills of San Lous Obispo Co. in Calif. There is good soil. Wonder if I can grow the China *Vastanea mollissima* chestnut. What would it cost me to get some and try them? I'll give them good attention and space. I wish them for nuts not timber. Please send me price and information or "what not" to get trial of them." . . . "Also Mr. & Mrs. Wilson of the grange are interested."

[Letter sent 11/20/50 to Wagner for attention.]
