4/1/37 - '25 FP-530 }
 '25 FP-531 } *Q. mollissima*

KREAMER, PENNA.

Calvin C. Fisher (bro. of Glenn E. Fisher, Duncannon, Pa.)

10/9/51—

G.E. Fisher sent in samples of nuts from six medium size and one large tree from this farm. These trees about 2 years older than the Glenn E. Fisher trees. Trees planted along an old fence row on a gradually western slope, in top soil that is about 12" deep under which is limestone clay. The field to the south is cultivated and on the north side is a sod lane. Trees look healthy but do not seem to bear well.

Kratz Station, Penna.

R. B. Snyder

Mail: 314 W. Main St., Lansdale, Pa.

1/20/47 - Has 12 trees gotten from the 1918 shipments to W. H. Rosenberry, probably # 41358, *C. crenata* live at Bungalow bearing, & some but very few nuts; but only 2 or 3 trees show no signs of blight.

Kutztown, Pennsylvania
