W-1951

Castanea mollissima

Quan. No.

5 MF

20 MI

Remarks:

3/30/36 About 15 of plants living.
10 died first + second years from poor
condition of plants. They seem to be
dwarf plants. One bloomed last year
but no burrs.

1951 - an extremely productive bigger tree they
wish to propagate vegetatively. Berry replid.

Henderson, Tenn

Wm. E. Mullan

District Forester, Box 83

4/30/41 - Chestnut seed, 129 lbs., of

FP-994 C. mal.
