V. L. Northcutt

4/9/36 20 MAA *Castanea mollissima*

1936 - 17 of the 20 are living. Have not had rain in 7 weeks. 10 were set out on a North gravelly hillside which hasn't been cultivated in 10 years and 9 of them are living & growing faster than those set in land recently cultivated. So far no insect trouble. Located 1 mi. NE of Altamont on Highway #56.

4/14/37 - Lost 18 trees on account of drought
4/19/37 - 18 FP-462 *C. mollissima*
11/22/39 - See attached
