

7/22/46 - Trees have been bearing 4 years
Some of the trees now 8" in diameter &
spread 10 ft. 60 or 75 of them bearing
this year.

11/5/47 - Has had a few chestnuts from year to
year, but this year had "a very fine
crop on a good many of the trees."
30 to 50 plants destroyed when little by
plowing. Some of the trees now
8" in diam. with a 15 to 20 ft spread,
low branching. No pruning; look
very healthy.

11/17/47 - Copy of Crandall notes sent him.
