

April 26, 1934.

Mr. Jas. L. Mielke,

Portland, Oregon.

Dear Mielke:

You will perhaps remember sending me last November some chestnuts from Mr. Frank Suttlemeier, Woodburn, Oregon. The nuts were so dry that we could not tell anything about them. Did you find out anything about the history of these trees? It sounds like a very interesting planting, and I think it would be well worth while getting in touch with the owner so that we can get samples of the best of the nuts this coming fall.

Sincerely,

G. F. GRAVATT,
Senior Pathologist.

*Nuts filed
similar to European.*
