Chief Engineer

Revised Special Provisions Construction Field Office/Furnishings and Equipment

The Owned Special Provisions for Construction Field Office (Item No. 0969060A – 066A), Construction Field Office Furnishings and Equipment (Item No. 0960070A), and mandatory Instructions for Use, have been revised and posted to the Department's [Owned Special Provision web page](#). These revised specifications and instructions are critical to resolving coordination issues related to desktop computers, mobile devices and to support e-Construction initiatives.

The Special Provisions and Instructions for Use (Specification revision date 1/20/2016) are available via the Department's Owned Special Provision web page and must be included in all applicable contracts advertised after March 1, 2016.

The owner of these Special Provisions and Instructions for Use is Christopher Angelotti (Christopher.Angelotti@ct.gov) in the Office of Construction. Alterations of Owned Special Provisions require consent of the owner.
