CT 2016 MOTORCYCLE SAFETY OVERVIEW

Motorcycle Safety

Performance Goals:

To decrease the number of un-helmeted fatalities below the five year (2009-2013) moving average of 28 in 2013 by 5 percent to a five year (2013-2017) projected moving average of 27 in 2017.

To decrease the number of motorcyclist fatalities below the five year (2009-2013) moving average of 47 in 2013 by 5 percent to a five year (2013-2017) projected moving average of 45 in 2017.

To decrease the percentage of fatally injured motorcycle operators with BACs greater than or equal to than 0.01 below the five year (2009-2013) moving average of 40 percent in 2013 by 5 percent to a five year (2013-2017) projected moving average of 38 percent in 2017.

The following activities took place as part of the Motorcycle Safety program to meet the above goals/targets. The target(s) was/were met/not met for the following reasons:

The general goal of Connecticut's Motorcycle Safety Program is to reduce the number of injuries and deaths among motorcycle operators and passengers. The latest available data from 2015 indicates that the five year moving average of un-helmeted fatalities is 31. During the same time period, the five year moving average for fatalities was 50. Un-helmeted fatalities over the last five years have shown a decrease as well as overall motorcycle fatalities decreasing slightly in relation to total fatalities at 19 percent (50 out of 258). Data also indicates that in 2015, 42 percent of motorcycle fatalities had a BAC greater than 0.00. The Connecticut Rider Education Program (CONREP) is the state's primary countermeasure to combat death and serious injury.

List any follow up action that will be taken to achieve targets in the future:

These goals will be achieved by continuing existing, and working toward expanding, motorcycle rider education programs, specifically the CONREP (Connecticut Rider Education Program). Addressing attitudes and operational skills through a targeted media campaign, including promoting helmet use by all riders (not just those young riders currently covered under existing law), and including motorcyclists in the planned emphasis on reducing impaired driving.

The summary of Motorcycle Safety program activity for the 2016 Federal Fiscal Year is listed below:

Activities:

Project Title: Motorcycle Safety Program Administration

Administrative Oversight: Department of Transportation, Highway Safety Office

Staff Person: Nicholas Just

This task included the coordination of activities and projects outlined in the motorcycle safety program area, statewide coordination of program activities, development and facilitation of public information and education projects, and providing status reports and updates on project activity to the Transportation Principal Safety Program Coordinator and the NHTSA Region 2 Office. Served as a direct line of communication between the HSO and Community College system that administers the CONREP, including assisting in annual activity proposals and voucher reimbursement. This task and associated project was specifically meant for in-house management of the motorcycle safety program. Funding was provided for

personnel, employee-related expenses, overtime, professional and outside services including facilities and support services for the required annual instructor update. Technical assistance and Rider Coach Trainer services were provided to update the CONREP to the newest MSF curriculum as well as continue a 3-wheel training program. This project included travel to the in-state training facilities for project monitoring, requests for support and out-of-state travel to the annual State Motorcycle Safety Administrators Summit in Portland, Oregon.

Fund	Project number	Agency	Title	\$ Amount
402	0196-0701-AA	CT-DOT/HSO	Motorcycle Safety Program Administration	\$21,539.78

Project Title: Connecticut Rider Education Program (Training) Administration

Administrative Oversight: Department of Transportation, Highway Safety Office

Staff Person: Nicholas Just

Rider training is the primary countermeasure applied to reaching the performance goal of decreasing the total number of motorcycle fatalities and decreasing the number of un-helmeted fatalities. During Fiscal Year 2016, DOT's Connecticut Rider Education Program (CONREP) continued motorcycle rider training at 14 sites locations throughout the state. Each location offered the Basic Rider Course (beginner) including scooters, intermediate Rider Course, and Experienced Rider Course. In 2016 CONREP continued a pilot program offering an additional course targeting advanced and sport bike riders, the Advanced Rider Course (ARC). Preliminary data for 2015 indicates that 4655 students were enrolled in 466 Connecticut Rider Education Program Courses. This task provided for the oversight of the CONREP in the following ways; the training and monitoring of 110 certified motorcycle safety instructors, providing support services to the Connecticut Rider Education Program training sites by, providing range maintenance including but not limited to; range design and quality assurance monitoring and technical support services, Motorcycle Safety Foundation(MSF) curriculum materials. Updated and maintained the program's www.ride4ever.org website, which is the programs direct point of contact for course students and license waiver information. A Motorcycle Training Coordinator as well as a data consultant was utilized to accomplish this task, preparing and maintaining project documentation, and evaluating task accomplishments. Funding was provided for personnel, employee-related expenses and overtime, professional and outside services, travel, materials, supplies, and other related operating expenses.

Fund	Project number	Agency	Title	\$ Amount
402	0196-0701-AB	CT-DOT /HSO	CONREP Program Administration	\$110,019.33

Project Title: Expanding Motorcycle Safety Efforts

Administrative Oversight: Department of Transportation, Highway Safety Office

Staff Person: Nicholas Just

This task utilized Section 405(f) funds to expand statewide motorcycle safety efforts. To expand training activities the CONREP recruited and trained potential instructor candidates and purchased supplies including MSF curriculum materials to support motorcycle training activities, as well as curriculum needed to continue our new 3-wheel training program. Connecticut specific QuickSeries Smart Riding pocket guides were also purchased.

Fund	Project number	Agency	Title	\$ Amount
405(f)	0196-0744-AA	CT-DOT/HSO	Expanding Motorcycle Safety Efforts	\$42,277.14

405(F)	0196-0744-AB	CT-DOT/HSO	Expanding Motorcycle Safety Efforts	\$8,413.60
--------	--------------	------------	---	------------

Total Amount of funds expended in this program area:

There was \$50,690.75 in 405(f) funds spent in this program area during FFY2016.

There was \$131,559.11 in 402 funds spent in this program area during FFY2016.

Graph 1

Graph 1 shows Connecticut's motorcyclist fatalities. Both the number of fatalities as well as unhelmeted fatalities are shown. There were 53 motorcyclist fatalities in 2015, 31 of which were unhelmeted. The graph data has been updated to reflect current numbers and may not correspond with some previously reported data.

2016 HSP Goal(s):

To decrease the number of motorcyclist fatalities below the five year (2009-2013) moving average of 47 in 2013 by 5 percent to a five year (2013-2017) projected moving average of 45 in 2017.

Outcome:

Both measures have fluctuated over the reporting period. The five-year moving average for motorcycle fatalities for 2011-2015 increased from 48 to 50 and the five-year moving average for unhelmeted fatalities for the same period decreased from 31 to 27.

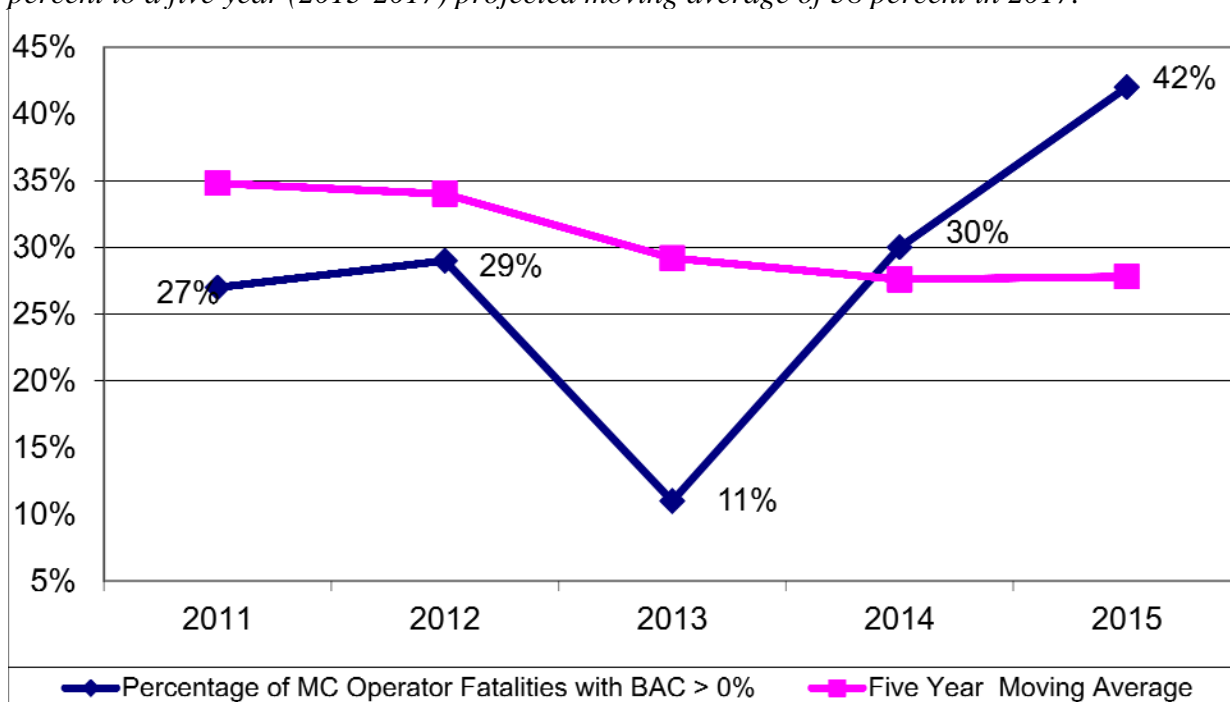

Please note that data in this Report is sourced from the preliminary 2015 Connecticut FARS Annual Report file. The data will be updated again in accordance with NHTSA-FARS standards and changes may be reflected during this update.

Graph 2

Graph 2 shows Connecticut's motorcyclist fatalities with a Blood Alcohol Content (BAC) greater than zero; 42 percent of all fatally injured motorcyclists had a positive BAC in 2015. The graph data has been updated to reflect current numbers and may not correspond with some previously reported data.

2016 HSP Goal(s):

To decrease the percentage of fatally injured motorcycle operators with BACs greater than or equal to than 0.01 below the five year (2009-2013) moving average of 40 percent in 2013 by 5 percent to a five year (2013-2017) projected moving average of 38 percent in 2017.

Outcome:

The preliminary value of 42 % is a more accurate number of motorcycle operators killed with a BAC greater than zero than reported in previous two years. This preliminary value is in line with the New England and National Averages.
